
The Connecticut Office of Higher Education (OHE) is providing the following information in the event that Connecticut institutions of higher education and private occupational schools are impacted by COVID-19.

Connecticut specific updates are available at https://www.ct.gov/coronavirus and updates from the Centers for Disease Control and Prevention (CDC) are found at https://www.cdc.gov/coronavirus/2019-ncov/index.html. As the information is continuously evolving, please check these websites frequently for updates.

Resources for Institutions of Higher Education – Plan, Prepare and Respond

Guidance for interruptions of study related to Coronavirus (COVID-19)

In addition, the answers to many questions the public may have about the spread of COVID-19 can be found by contacting 2-1-1 or by texting “CTCOVID” to 898211 or by visiting the state’s coronavirus information website at ct.gov/coronavirus. People are encouraged to review that website for answers before calling the hotline. The 2-1-1 hotline is available 24 hours a day. Multilingual assistance and TDD/TTY access for those with a hearing impairment is also available.

This information hotline is only intended to be used by individuals who are NOT experiencing symptoms but may have general questions related to COVID-19. Anyone experiencing symptoms is strongly urged to contact their medical provider to seek treatment.

In closing, the Office of Higher Education asks that you send your institution’s plan for COVID-19 preparedness in addition to any emergency procedures enacted by your school related to COVID-19 to Sean Seepersad, Division Director of Academic Affairs Sean.Seepersad@ct.gov
